

ABINGDON
HOUSE SCHOOL & COLLEGE

Behaviour Support Policy and Procedures

Responsible Person: Deputy Head/Head of Behavioural Support

Last Review Date: September 2020

Next Review Date: September 2022

In all AHSC Policies, unless the specific context requires otherwise, the word “parent” imports the meaning parent, guardian, carer or any other person in whom is vested the legal duties and responsibilities of a child’s primary caregiver.

If you require a copy of this document in large print, braille or audio format, please contact AHSC’s Main Office.

AHSC employs the services of the following consulting companies to ensure compliance is met and best practice is implemented:

**Peninsula HR Online
Peninsula Business Safe (Health and Safety)
Care Check (DBS)
Educare (online CPD)**

Introduction

Abingdon House School is owned and operated by Cavendish Education; the Proprietary Body also known as the Governing Body. Any reference to Governors means any Director of Cavendish Education.

This Policy document is one of a series of AHSC Policies that, taken together, are designed to form a comprehensive formal Statement of AHSC's aspiration to provide an outstanding education for each and every one of its students, and of the mechanisms and procedures being put into place to achieve this. Accordingly, this Policy needs to be read alongside all of these Policies in order to get the full picture, and should be read in conjunction with the **Equality Policy**, the **Health and Safety Policy**, the **Promoting British Values Policy** and the **Safeguarding Children & Child Protection Policy** in particular. All of these Policies have been written, not simply to meet statutory and other requirements, but to evidence the work that the whole School is undertaking to ensure the implementation of its core values, our '4 Cs':

**Character
Creativity
Confidence
Competence**

1. Aims

This policy aims to:

- Outline the positive behaviour support approaches at AHSC
- Provide a consistent approach to behaviour support
- Define what we consider to be unacceptable behaviour
- Outline the behaviour support systems within the school and give guidelines to ensure that they are consistently followed by all staff.
- Outline the approach and application of physical interventions.
- Outline the staff and volunteers' understanding of their responsibilities in preventing, addressing and intervening, to incidents of (or alleged) bullying, including cyber bullying in accordance with the government guidelines.

2. Legislation and statutory requirements

This policy is based on advice from the Department for Education (DfE) on:

- Behaviour and discipline in schools
- Searching, screening and confiscation at school
- The Equality Act 2010
- Use of reasonable force in schools
- Supporting pupils with medical conditions at school

It is also based on the special educational needs and disability (SEND) code of practice.

In addition, this policy is based on Schedule 1 of the Education (Independent School Standards) Regulations 2014; paragraph 7 outlines a school's duty to safeguard and promote the welfare of children, paragraph 9 requires the school to have a written behaviour policy and paragraph 10 requires the school to have an anti-bullying strategy.

3. Bullying

Bullying is defined as the repetitive, intentional harming of one person or group by another person or group, where the relationship involves an imbalance of power.

Bullying is, therefore:

- Deliberately hurtful
- Repeated, often over a period of time
- Difficult to defend against

Bullying can include:

Type of bullying	Definition
Emotional	Being unfriendly, excluding, tormenting
Physical	Hitting, kicking, pushing, taking another's belongings, any use of violence
Racial	Racial taunts, graffiti, gestures
Sexual	Explicit sexual remarks, display of sexual material, sexual gestures, unwanted physical attention, comments about sexual reputation or performance, or inappropriate touching
Direct or indirect verbal	Name-calling, sarcasm, spreading rumours, teasing
Cyber-bullying	Bullying that takes place online, such as through social networking sites, messaging apps or gaming sites

We do not accept bullying in any form and we investigate and deal with all such reports or complaints swiftly and appropriately. Incidents of bullying are recorded as soon as possible in the Bullying Incident Log which is signed off by a member of SLT (see appendix). Refer to the Countering Bullying Policy.

We do not accept racism in any form and we investigate and deal with all such reports or complaints swiftly and appropriately. Incidents of racism are recorded as soon as possible in the Racism Incident Log which is signed off by a member of SLT (see appendix).

4. Definitions of challenging behaviour at AHSC

There is generally always a reason for behaviour: it can be an attempt to communicate, or a way of coping with a particular situation.

Some behaviour displayed by young people at Abingdon House School may be described as 'challenging'. Challenging behaviour can be defined as:

'...behaviour of such intensity, frequency or duration that the physical safety of the person concerned or other people is at serious risk, or the behaviour results in the person only having limited or no access to ordinary community facilities' Emerson, Eric (2001).

Behaviours that may challenge include those with the potential to cause harm. However, other behaviours can include those related to disengagement, demand avoidance, withdrawal from interaction, repetitive routines or questioning can often challenge staff and services as much as the more obviously physically challenging behaviours.

A variety of factors may influence a person's behaviour and contribute to incidents of challenging behaviours.

It is the staffs' responsibility to define challenging behaviours by identifying the following:

- Behaviours that are most affecting student's quality of life;
- By identifying how much the student's access to the curriculum is affected;
- By identifying which behaviours staff and other students find most challenging.
- Not all behaviours need changing. We need to be tolerant of differences and not interpret all behaviours as those that need changing;
- Some behaviours are coping strategies or part of students' needs and / or personality, this is natural and should not be interpreted otherwise.

5. Roles and responsibilities

5.1 The governing board

The governing board is responsible for monitoring this behaviour policy's effectiveness and holding the headteacher to account for its implementation.

5.2 The Headteacher

The headteacher is responsible for reviewing and approving this behaviour policy.

The headteacher will ensure that the school environment encourages positive behaviour and that staff deal effectively with poor behaviour, and will monitor how staff implement this policy to ensure rewards and sanctions are applied consistently.

5.3 Staff

Staff are responsible for:

- Implementing the behaviour policy consistently
- Modelling positive behaviour
- Providing a personalised approach to the specific behavioural needs of particular pupils
- Recording behaviour incidents (see appendices for behaviour logs)

The senior leadership team will support staff in responding to behaviour incidents.

5.4 Parents

Parents are expected to:

- Support their child in adhering to the pupil code of conduct
- Inform the school of any changes in circumstances that may affect their child's behaviour
- Discuss any behavioural concerns with the class teacher promptly

6. Positive behaviour support and AHSC standards of behaviour

Abingdon House School has high aspirations and expectations of student behaviour and in order to fulfill these, AHSC follows a positive behaviour support approach. The British Institute of Learning Disabilities (BILD) defines positive behaviour support as an approach for working with people with special educational needs (SEN) who “exhibit behaviours described as challenging”. Autism Spectrum Australia (ASPECT) explains that this approach involves encouraging helpful behaviour through reinforcement. It focuses on prevention and proactive approaches to challenging behaviour. ASPECT adds that this means “anticipating where things may go wrong and preventing that from happening”, rather than reacting to them when they do.

At Abingdon House School, we expect our students to display our core values: character, confidence, competence and creativity. In order to do so we have behaviour expectations outlined in our school rules. The school rules are displayed in every classroom. These are as follows:

- Be respectful of teachers, classmates and property.
- Listen to your teachers and classmates, and follow instructions.
- Be kind and polite to others.
- Be safe.

- Try your best.

In addition, the following items are prohibited from school:

- Knives, weapons, alcohol, illegal drugs, tobacco, cigarette papers, fireworks, lighters, pornographic images
- Any article that staff reasonably suspects has been or is likely to be used to commit an offence, cause personal injury or damage to property

7. Overview of school wide positive behaviour strategies

7.1 Praise and rewards

The school rules are displayed in every learning environment and referred to throughout the day. The rules cover the behaviour expectations and are clearly and consistently communicated by staff to all of the students. Students are rewarded and praised for following the school rules.

Every Monday, each class has morning form/circle time when expected behaviour is discussed in correlation to students individual needs, targets and abilities. During this time, students are also encouraged to think of the rewards they would like to work towards to empower them to take ownership of their behaviour and how it is rewarded.

There is a clear progression between junior, secondary and college reward systems ranging from more frequent and concrete to delayed and intrinsic in later phases of education.

The Head Behaviour and Wellbeing joins class and therapy meetings once a month to oversee strategies and support staff with analysis of the behaviour. This ensures behaviour strategies are being used in line with therapeutic interventions and with an awareness of students mental health.

Junior School Reward Systems

Children who present expected behaviours by following the school rules receive merits. Children can earn up to 5 merits per lesson for following each of the school rules. Merits are collected throughout the week and can be traded for rewards every Friday at the Merit Shop.

The Merit Shop rewards will be decided by the teacher with the students input and will change weekly to keep students motivated. Rewards may include treats (hot chocolate, popcorn etc.), visits to the local cafe, use of electronics and laptop free time.

Certificates are an additional reward that can be awarded to children in the Junior School. A 'Most Merits' certificate is handed out to each class at the end of the week for the child who earned the most merits. A 'Star of the Week' certificate is also awarded in every class for the

child who performed above and beyond in a certain area that week.

Each class teacher has an individual system for tracking merits in their classrooms.

Senior and College School Reward Systems

Children who present expected behaviours by following the school rules receive credits. As the expectations of children are greater in the senior school and college, children can earn 1 credit per lesson for following all of the school rules.

Credits are recorded in individual credit books throughout the week and can be traded for rewards every Friday at the Credit Shop.

The Credit Shop rewards will be decided by the teacher with the students input and will change weekly to keep students motivated. Rewards may include treats (hot chocolate, popcorn etc.), visits to the local cafe, use of electronics and laptop free time.

Commendations are an additional reward that can be awarded to students. Commendations are more difficult to earn than credits, and reflect that upper school students should consistently be behaving in a more mature manner.

Commendations can be given out for:

- Outstanding effort in class (over a period of lessons);
- Outstanding behaviour (over a period of lessons);
- Supporting other students;
- Supporting members of staff;
- Being a role model for other members of the AHSC community;
- Other outstanding contributions to the AHSC community

Commendations are logged centrally in the Senior School and College Commendation Log and can be given out by any member of the teaching staff.

As the expectations of the students are higher, we have also made the rewards for commendations greater. Students will work towards reaching milestones which offer certification and accompanying rewards. The rewards milestones are laid out below.

Number of Commendations	Reward
20	Bronze Certificate (Form tutor) & £5 voucher of choice
40	Silver Certificate (Deputy Head teacher) & £10 voucher of choice
60	Gold Certificate (Head teacher) & £15 voucher of choice
80	Platinum (Mr Hassan) & £20 voucher of choice
100	Cavendish Star Award & £30 voucher of choice

School Wide Reward Systems

Jackpot rewards are immediate rewards that are given out during lessons throughout the school. Jackpot rewards are to recognise students who are displaying positive behaviours on a regular basis. Jackpot awards can be awarded to students for both positive behaviour and academic achievement. Jackpot rewards include but are not limited to:

- 5 minutes free time of your choice.
- 5 minute break outside of the classroom (e.g. using the trampoline, hall equipment)
- 1 extra credit / 5 extra merits for fantastic.

7.2 Consequences

We aim to reduce the use of consequences by using a positive behaviour approach. The use of consequences at AHSC are in the form of reflection which is a restorative practice.

Our general consensus is that our students do not lose play time as the benefits of exercise almost always contribute to a reduction in anxiety and an increase in self regulation. They will not be 'banned' from activities, however, they may be asked to take a break from a game or activity in order to keep themselves and others safe.

In every aspect of school life the school seeks to promote positive behaviour. However, in instances of negative behaviour, the focus is on encouraging a pupil to change that behaviour to a more useful one. If, however, the pupil does not respond, Reflection can be used to help students understand the impact of their behaviour in a more restorative way.

At Abingdon House School we use visuals in each learning environment to support the students to identify and modify their conduct.

In the junior school this visual is in the form of a star and in the senior school the visual is in the form of a circle. Other than the difference in shape, to indicate different areas of the school, the use of the system and its purpose is consistent throughout the school.

Star/Circle System

All students begin the lesson with their name in the centre of the visual.

Students who show expected behaviours and follow the school rules remain in the centre. This recognises the fact that they are doing what is expected of them.

If a student is finding it difficult to follow the school rules, they will be issued with a verbal warning followed by an instruction on what they need to do to show they are following the school rules.

If a student receives another warning they will be moved out of the center of the visual. This indicates that they are not following the school rules. At this point it is explained to them;

what rules they are not following and how to get back into the centre of the visual.

If the student receives another warning their name will be moved to 'reflection'. Reflection happens at the end of the school day during form time and is a restorative intervention. Form teachers deliver reflection however, in the case where they are unavailable a member of the Behaviour Support Team will support. During reflection, students are asked to reflect on their behaviour and discuss meaningful strategies to help in the future.

Students are encouraged to get back onto the centre of the visual even after being moved to the reflection area. If a student successfully gets back onto the centre and begins demonstrating expected behaviour, they will continue to have the opportunity to earn merits / credits. Students will still however, be required to attend reflection at the end of the school day.

Reflection forms are completed digitally (see appendix) and a PDF copy of the form is emailed to parents immediately. There are two formats of reflection forms; form A and B, these differ depending on the age and cognitive ability of the child.

If a student's behaviour is significantly disruptive to learning or is potentially dangerous to other students, a member of the behaviour support team will be called to take the child for reflection immediately.

Whenever a reflection form is complete, the staff member must log the reflection on the schools behaviour log.

If multiple reflections accumulate there are incremental measures that will occur to help support the students to improve their behaviour for learning. Students who accumulate multiple reflections and who are not responding to the school wide positive behaviour support strategies will be put on a behaviour support plan (BSP) (see section 8).

Some behaviours are significant enough to move beyond the typical warning system and go straight to SLT intervention. These behaviours are outlined below;

- Threatening behaviour towards others
- Inappropriate physical contact towards others
- Intentionally damaging school property
- Physical violence
- Racists comments
- Homophobic comments
- Sexist comments
- Bullying
- Stealing
- Illegal online activity

The visuals are linked to the school rules and are displayed in every learning environment around the school (see appendix).

In addition to receiving a reflection, the following additional sanctions may be implemented:

- Loss of privileges appropriate to the child's age and their understanding
- The student may be required to catch up with the work they have missed at home
- Clearing up as appropriate
- Reparation of damaged school items
- The student is referred to the appropriate member of SLT
- A phone call home to parents
- Parents called for a meeting
- Exclusions (see Exclusion Policy)

Sanctions and Punishments not allowed include:

Corporal Punishment

Any form of hitting of a child (including hitting a child in anger or retaliation)

Deprivation of access to food and drink

Enforced eating or drinking

Prevention of contact by telephone or letter with parents or any appropriate independent listener or helpline

Requirement to wear distinctive clothing

Locking in a room or area of building

Intimate physical examination of child

Withholding any aids or equipment needed by a child

8. Behaviour Support Plans (BSP)

A behaviour support plan (see appendix) is a document created to help understand and support behaviour in young people at Abingdon House School. It provides staff with a step by step guide to making sure the young person not only has a great quality of life but also enables staff to identify when they need to intervene to prevent an episode of challenging behaviour. Any specific interventions identified in BSP will be included in a student's IEP and addressed regularly through carefully planned interventions.

8.1 Process of Writing BSPs

1. Behaviours are identified and an observation will be carried out by the Head of Behaviour and Wellbeing to establish any triggers and causes of the behaviour. There are a variety of tools available to compile functional analysis of the behaviour e.g. ABC chart, Behaviour Log Data, Individual Behaviour records. (see appendix)
2. Consultation with the students' parents and relevant professionals.
3. BSP meetings are held with the class team, therapists and SENCo with input where necessary.
4. Consultation with the student to ensure their input is included.
5. The plan will be agreed and signed by parents.
6. Instead of being something that is kept safely filed away, it is a document that should be readily available, and updated as new ideas come to mind. BSP's are saved under the individual students pupil files on the Google Shared Drive.

8.2 BSP essential information

Identifying behaviours

This section of the BSP focuses on identifying and naming the behaviours that challenge and prevent a young person from accessing learning and successful socialising. This section focuses on specific targeted behaviours as identified by the class team in the school setting. This however can differ from home setting. This section also includes triggers and the function of the behaviour (if known). Including the function of behaviour is an important step in the BSP as it helps guide people involved in the process of identifying appropriate strategies later on in the plan. This section of the BSP is not an exhaustive list but rather an acknowledgement of priorities when supporting our students.

Action Plan: Proactive and Reactive Strategies

This part of the plan focuses on targeted intervention that cannot be achieved through the school wide positive behaviour approaches. This section also includes very specific proactive and reactive strategies in relation to the addressed behaviour.

Proactive strategies are planned for in the BSP. When we are being proactive, we are looking for things that will help minimise the likelihood that someone will resort to challenging behaviour. These strategies should aim to enhance the quality of life and make the reactive plan redundant in the long term.

At Abingdon House School we use a variety of specific behaviour strategies to promote positive behaviour and reduce and modify behaviours that challenge. Each strategy is implemented according to a pupil's individual needs. The most common strategies adopted in a BSP are:

- Teaching replacement skills
- Changing the physical environment
- Individualised routine and structure
- Visual timetables / resources
- Pupil contracts
- Social Stories
- Therapeutic input
- Behaviour interventions
- Individual reward systems

These are examples of some strategies that might be used although it is not an exhaustive list and all these strategies do not work in isolation. In some cases teachers will use their professional knowledge to implement additional strategies depending on the individual.

Additional strategies are to be discussed as part of a multidisciplinary team and then added into the BSP.

Reactive strategies describe what should be done in response to challenging behaviour. It should include step-by-step advice on how to minimise the likelihood that the challenging behaviour will escalate and put people at risk.

Initial steps might include non-physical responses such as:

- Not responding to the behaviour
- Giving reminders
- Distraction
- Withdrawal from the situation

Parent and Pupil Input

This part of the plan ensures that both the student and their parents are involved in the process of creating a BSP. Abingdon House School recognises that for a student to modify their behaviour, they need to be involved in and accept the interventions. There will be times where the level of student input is limited. In these cases, parent input will be greater.

Behaviour Support Plan

The second section of the BSP includes step-by-step advice on how to minimise the likelihood of challenging behaviour by offering incremental support to noticing specific behaviours and de-escalating strategies to stop the behaviour escalating further.

This part of the plan is separated into four coloured sections; Green, Orange, Red and Purple. Each section indicates incremental behaviours that may be displayed by the student and strategies to support. These sections are defined as followed;

Proactive strategies are the 'green' part of the Behaviour Support Plan and aim to support the child or adult to stay happy and calm. Proactive Strategies are designed to meet the person's needs without them needing to rely on challenging behaviour. This part of the plan should include any strategies that are aimed at reducing the chances that the behaviour will happen.

This part of the plan will describe what to do in response to the early warning signs, to help you intervene as early as possible, before the person resorts to challenging behaviour.

Reactive strategies are the 'red' part of the Behaviour Support Plan. A reactive plan describes what you should do, or how you should react, in response to challenging behaviour. Reactive strategies are a way to manage behaviour as safely and quickly as possible, to keep the person and those around them safe.

This part of the plan should specify the procedures to be followed after an incident. This section should specify any immediate behavioural actions that need to be implemented following incidents.

Reviewing a BSP

A BSP is a 'live' document that is continuously updated to reflect any increased knowledge or understanding of the person and how best to support them. BSPs are reviewed on a regular basis, at least 3 times per year.

9 School Wide Classroom Support

Teaching and support staff are responsible for setting the tone and context for positive behaviour within the classroom.

Our Approach

We adopt positive strategies to develop long term changes to behaviour. We believe that changed behaviours as a result of positive strategies may take longer to achieve but will have greater lasting results.

Children are helped to understand acceptable behaviour through classroom organisation and the establishment of clear routines, explicit expectations of behaviour, and the use of timetables. There is a consistent attitude amongst staff as to what constitutes inappropriate behaviour.

Behaviour patterns are tracked and monitored on the Behaviour Log (on google sheets) database. This enables us to track behaviour patterns and make more focused interventions.

Strategies

At Abingdon House School we use a variety of strategies to reduce and modify challenging behaviour. Each strategy is implemented according to students' individual needs. The most common strategies adopted throughout the school are:

- Changing the physical environment / stimulation etc.;
- Ensuring the environment is organised and predictable;
- Paying attention to external stimulation such as light, temperature, noise etc.;
- Providing structure and routines;
- Using visual timetables, work and activity routines, planned transition times;
- Improving communication skills;
- Improving students' communications skills through the use of communication support;
- Targeted teaching of communication skills via life skills and social skills sessions.

Clear and Consistent Expectations

Ensuring students know what is expected of them and presenting students with clear choices/options.

Reflective Skills

Teaching students strategies which allow them to link appropriate behaviours to situations via the 'Size of the Problem' programme.

Theory of Mind

Direct teaching of skills related to emotional literacy via our 'Zones of Regulation' programme.

Distraction

A quick way of getting students to the situation where we can reinforce positive behaviour.

Replacement

Providing students with alternative ways to behave that are more acceptable.

Tokens/Contracts

Breaking down a behaviour into smaller and manageable sections of periods of time. Tokens/contracts are an effective way of working towards a reward.

Social Stories

A short story written in a specific style and format. This aims to teach social understanding and is matched to the skills of the student.

Planned Ignoring

Extinction, or planned ignoring (ABA), refers to a strategy where an unwanted behaviour (but not the individual) is ignored. It is based on the idea that responses provided by others (such as giving attention or providing an object or activity) may be maintaining unwanted behaviour.

Requesting 'Break'

Aims at teaching students to recognise the signs of distress or overload and teaches them to self-regulate through requesting a break from a stressful situation. It is time away from a desired activity or contact and can only be used as a break from a difficult situation.

Sensory Diets

Specific physical activities designed to assist children with self regulating e.g. animal walks for a child who needs additional stimulation or using the swing to help reduce high levels of arousal.

These are an example of some strategies that might be used. It is not an exhaustive list. These strategies do not work in isolation. In some cases teachers will use their professional knowledge to implement additional strategies depending on the individual.

Achievement and rewards are at individual, class and whole school level.

Consistency

One of the most important things to bear in mind when undertaking any behavioural strategy or intervention is the need for a consistent approach. Without the support and commitment of

all relevant people in an individual's life, it is unlikely that lasting behavioural change will be achieved.

Maintenance

From time to time it may be necessary to go back and revisit a particular strategy or approach if an individual is experiencing difficulties, to ensure that new skills are maintained over time. This may particularly be the case around times of illness, stress or change.

Fading Out Prompts and Reinforcers

Our ultimate goal for any behavioural intervention should always be to promote an individual's independence, quality of life and self-efficacy. To this end, it is important that any prompts and reinforcers (with the exception of verbal praise) be gradually reduced to as low a level as possible while maintaining the desired behavioral change.

Individual Education Plans (IEPs)

Behaviour targets can be part of the IEP targets setting process. This will be supported by the relevant professionals.

9.1 Physical restraint

In some circumstances, staff may use reasonable force to restrain a pupil to prevent them:

- Causing disorder
- Hurting themselves or others
- Damaging property

Incidents of physical restraint must:

- **Always be used as a last resort**
- Be applied using the minimum amount of force and for the minimum amount of time possible
- Be used in a way that maintains the safety and dignity of all concerned
- Never be used as a form of punishment
- Be recorded and reported to parents (see appendices for Physical Restraint log)

Post Physical Intervention Procedures

As soon as possible after an incident staff should fill out the physical intervention log. This should be within 24 hours and should be signed by a member of the SLT.

The following procedures need to take place:

- A debrief for staff involved and their welfare checked;

- When the staff member and child are both calm a debrief should take place between them;
- Time to reflect with the individual child as to strategies that could be useful in the future to help reduce the challenging behaviour;
- BSPs reviewed and any amendments to be agreed with SLT and parents;
- Any serious incidents that result in injury to students or staff MUST be entered into the accident book located in the office. If necessary a first aider should see the individual and if a head injury is caused a letter will be sent home.

Staff will receive physical handling and restraint training, to various levels, depending on their role. The extent of physical intervention used by each staff member will be directly related to their training. The only exception to this are where emergency intervention is required for safety reasons.

9.2 Confiscation

Any prohibited items (listed in section 6) found in pupils' possession will be confiscated. These items will not be returned to pupils.

We will also confiscate any item which is harmful or detrimental to school discipline. These items will be returned to pupils after discussion with senior leaders and parents, if appropriate.

Searching and screening pupils is conducted in line with the DfE's latest guidance on searching, screening and confiscation.

9.3 Pupil support

The school recognises its legal duty under the Equality Act 2010 to prevent pupils with a protected characteristic from being at a disadvantage. Consequently, our approach to challenging behaviour may be differentiated to cater to the needs of the pupil.

The school's special educational needs co-ordinators and the school's therapy team will evaluate a pupil who exhibits challenging behaviour to determine whether they have any underlying needs that are not currently being met.

Where necessary, support and advice will also be sought from specialist teachers, an educational psychologist, medical practitioners and/or others, to identify or support specific needs.

9.4 Debriefing Process

Minor incidents

Following minor incidents Staff Teams are advised to meet and evaluate what has happened. The Team should ensure other members of staff are aware of the incident and what happened after. The Team is advised to reflect why the incident occurred, what preventative measures could be put into place and how the incident was dealt with. Teams should ensure all staff are in agreement and support each other. It is important that Staff Team members feel confident about decisions made.

Minor incidents are recorded and monitored so that a pattern of behaviour can be established. Minor incidents such as timeouts or concern logs are recorded on the Behaviour Logs as orange and/or in the individual's personal file. (see appendix).

Serious Incidents

Following a serious incident involving injury or prolonged physical intervention a break from the classroom environment is advised. Staff are encouraged to have time away to 'recover' from the stress or emotional experience and to receive support and guidance. It is important that staff do not return to class until they have had sufficient time to compose themselves and feel confident about working with the individual again without prejudice.

Serious incidents must be logged on the relevant Behaviour Log. If a physical intervention or restraint has been carried out then this **MUST** be logged also in the Physical Intervention Log book. A serious incident is where there is a foreseeable risk. This is colour coded red in the log (see appendix).

De-briefing Process for Students

Students may require 'timeout' or time to 'regroup' before they return to class. As each individual student will respond differently, this should be managed on an individual basis.

It is important to recognise that other students who were not directly involved in the incident may require time or reassurance as a consequence.

Proactive strategies are the 'green' part of the Behaviour Support Plan and aim to support the child or adult to stay happy and calm. Proactive Strategies are designed to meet the person's needs without them needing to rely on challenging behaviour. This part of the plan should include any strategies that are aimed at reducing the chances that the behaviour will happen.

This part of the plan will describe what to do in response to the early warning signs, to help you intervene as early as possible, before the person resorts to challenging behaviour.

Reactive strategies are the 'red' part of the Behaviour Support Plan. A reactive plan describes what you should do, or how you should react, in response to challenging behaviour. Reactive strategies are a way to manage behaviour as safely and quickly as possible, to keep the person and those around them safe.

This part of the plan should specify the procedures to be followed after an incident. This section should specify any immediate behavioural actions that need to be implemented following incidents.

Appendix 6.

The Zones of Regulation

Blue Zone:	Low state of alertness, poor body control. Sad, tired, sick or bored.
Green Zone:	Neutral/ in control of body. Calm, happy, focused, content.
Yellow Zone:	Heightened alertness, some control of body. Stressed, frustrated, anxious, excited, silly, nervous, confused, sensory seeking.
Red Zone:	Extremely heightened alertness, not in control of body. Anger, rage, panic, terror, extreme elation.

Important Terms

Self-Regulation

The ability to achieve the preferred state of alertness for the given situation. This includes regulating our body's needs as well as our emotions.

Tools

Doing/calming/thinking strategies that aid self-regulation.

Size of the Problem

Helping the child to think about the size of the problem – big/medium/little problems. Is the reaction appropriate to the problem?

Using the Tools

When a student identifies that they are in a particular zone offer them a choice of tools:

- A calming tool e.g. figure of 8 breathing;
- A doing tool e.g. pulling theraband;
- A thinking tool e.g. talking to an adult.

Not all strategies suit everyone so whenever possible offer a choice. (Some students may struggle to choose a strategy particularly in the Red Zone and at these times it may be more appropriate to give one direct strategy).

It is important that we all use and model the same language when talking about the Zones. First label the Zone, then the feeling and last offer a choice of tools.

"I can see you are in the Yellow Zone and feeling frustrated. Would you like a doing, calming or thinking tool?"

After using the tool: "You did 10 star jumps and now you are back in the Green Zone."

Example

Fred is in the Yellow Zone and feeling anxious, there is a change in the timetable today and changes in structure worry him. Fred has identified that he is in the Yellow Zone either by indicating this on a thermometer, telling someone or someone has noticed.

He is offered a choice of 3 tools:

- Figure of 8 breathing (calming)
- Pulling theraband (doing)
- Talking to an adult (thinking)

Fred chooses to do some figure of 8 breathing, which an adult talks him through. Afterwards he feels less anxious, in the Green Zone and ready to work in his lesson.

If he was still feeling anxious he could be offered one of the other 2 strategies. Over time a picture of what strategies help which students can be built up.

Why do we need to support students by giving them sensory strategies?

It is important to remember when we are supporting students to select a strategy to get to or stay in the Green Zone that we are helping them to do something that comes naturally to most people.

We all use self-regulation strategies automatically in everyday life. If you think about your morning routine for work there will be parts of it that you consider 'essential' that help you stay regulated e.g. a cold or hot shower, a warm drink, a brisk walk, listening to music, reading on the train, cycling to work, talking to your partner before you leave, putting on a particular hand cream or perfume.

Everyone needs to self-regulate even football managers! Some of our students need a lot of heavy input in the jaw and mouth area, watch premieriership football managers chewing on gum on the sidelines – they are using the same heavy muscle input through their jaw to regulate during a stressful time.

The tools of the Zones of Regulation are there to support students to find ways to use their sensory system to keep them regulated. Not all strategies people have are appropriate or healthy behaviour so we want to equip our students with helpful strategies so that they don't develop unhelpful ones.
